

The original mark. Now scalable.

Faithful path tracing of the supplied 700 × 700 artwork, with clearly labeled production and layout variants.

Original client-supplied PNG

Primary / full color

Every delivered SVG uses editable vector paths. There are no embedded raster images and no font dependencies. Fine memorial details are traced from the original; vectorization preserves the source’s existing irregularities.

File type	Use
SVG	Editable master for web and vector-design software.
PDF	Vector artwork for placement in print layouts.
PNG	Transparent 2400px export for everyday use.

Light. Dark. Single ink.

Primary / white outline

A wider signature.

The existing traced word shapes are arranged horizontally. The original letter angles and memorial cutout remain intact. These are proposed lockups, not replacements for the primary badge.

Wide wordmark — proposed arrangement

White artwork is transparent and may look blank against a white PDF viewer. Place it on a dark background in your design application. The gray/dark panels in this preview are not included in the SVG or transparent PNG files.

Rule	Application
Primary identity	Use the full-color badge as the faithful source-matched version.
Clear space	Keep at least 10% of the mark width clear on every side.
Small use	Fine detail still needs size-specific review; no simplified favicon is claimed here.
Production	Approve variants before rollout. Confirm minimum line/detail sizes with print or embroidery vendors.
